

JND provides focused eDiscovery management that is targeted to provide efficient responsiveness while reducing risk and overhead costs for our clients. Our flexible cloud-based platform allows you to access your information at your convenience, all within a secure environment. Whether producing or requesting eDiscovery, our team of seasoned professionals targets the critical information while ensuring thorough searches are regularly conducted.

EFFICIENT WORK PROCESSES

JND crafts eDiscovery terms to ensure the data you collect is quickly identified, reviewed and produced, resulting in significant cost and time savings for your organization. We continue this tailored approach in every aspect of our legal assistance by designing custom workflows and tailored dashboards that suit our clients' specific needs.

INFORMATION AT YOUR FINGERTIPS

With real-time reporting and data transfers that are ten times faster than other platforms, you can quickly gain access to the information you need when you need it and where you need it. We utilize secure cloud-based platforms where you can securely access and review your data from any location. This accessibility helps you make real-time decisions in the moment based on the most current information.

CUTTING-EDGE TECHNOLOGY

JND's technical team has extensive experience in web and traditional software development. Our organization has also invested in "Commercial Off The Shelf Software," allowing us to support the largest and most complex eDiscovery matters. Our team offers our clients the following:

- Cloud implementation that allows you to access your data at any time
- GLBA-compliant and EU Safe Harbor compliant measures
- Unprecedented search speeds that save you time and frustration
- Expert application security measures
- Database optimization that rejects non-responsive data
- Experience with CMS implementation
- Targeted mobile and responsive technology

☑ **UNIQUE SOLUTIONS**

At JND, each client receives individualized attention. We adopt a strategy based on our client's individual needs and implement specific tools and evaluations tailored to these unique needs. Depending on your specific needs, we use Commercial Off The Shelf Software, open source and proprietary technology.

☑ **FAST RESPONSE TIMES**

When you are subject to discovery requests, our hands-on team helps to quickly identify and prioritize relevant information. We document where your electronically stored information is, allowing us to quickly access it and comply with discovery protocols. We can extract data from more than 1,000 types of electronic devices, including servers, network shares, social media sites, smartphones, websites and portable media. From the information that we gather, we produce reports that provide critical information about the content of your data.

☑ **EXPERT CONSULTING AND TESTIMONY**

JND has successfully handled complex cases, providing assistance to in-house and outside counsel on both sides of the aisle. We have assisted small businesses, large corporations, and Fortune 500 companies that have faced challenging matters. Our legal experts analyze the evidence from the opposing party to determine its accuracy and potential admissibility in trial. We provide comprehensive reports to our clients that discuss the potential legal implications of this evidence.

We also provide expert witness testimony to add credibility to your case. We clearly present your evidence to a judge or jury in a concise manner to aid the decision maker's understanding of the process.

☑ **STRINGENT SECURITY MEASURES**

JND employs military-grade security measures that protect the integrity of your data. Our hybrid cloud solution utilizes 256-bit SSL encryption and an ISO-certified datacenter. Your data is safely stored in SSAE16 databases which are regularly reviewed by an independent party to ensure compliance and security. Our measures comply with the strictest federal laws, including HIPAA and GLBA. Our security measures rival those of the most secure banks and financial institutions. We are dedicated to keeping our clients' information confidential and employ safeguards to maintain integrity.
